Product Overview

The **BMS Gateway** serves as the bridge between SimplySNAP Intelligent Lighting Solution and Building Management Systems (BMS).

With the BMS Gateway, you can integrate the advanced lighting controls of SimplySNAP with your current BMS solution. The integration makes it simpler to manage and maintain all of your facility’s commercial or industrial automated applications through one system.

Combining smart lighting controls with existing BMS boosts energy savings by providing targeted and reliable power consumption data.

Like the BMS, SimplySNAP is scalable, and can readily support future growth and expansion.

Features

- Allows SimplySNAP deployment to be controlled by standard BMS solutions
- Supports BACnet IP and BACnet MS/TP
- Supports Modbus TCP/IP and Modbus RTU (RS-232, RS-485)

### Product # | Description
---|---
BMS-GW-002 | BMS Gateway

### Dimensions

4.0” H x 1.1” W x 2.7” D (102 mm H x 28 mm W x 68mm D)

### Operating Environment

-20°C to +70°C; 10-95% relative humidity, non-condensing; indoor use only

### Power Supply Options

Included external power supply rated for 0°C to +40°C; DIN Rail power recommended for temperatures outside that range.

### Electrical Connections

- 3-pin Phoenix connector with: RS-485 (Tx+ / Rx- / gnd)
- 3-pin Phoenix connector with: Power port (+ / - / Frame-gnd)
- Ethernet 10/100 BaseT port

### Input Power

12-24V DC, 0.3 A

### Certifications

UL, RoHS, FCC, CE, BTL

### Warranty*

2 Years

*See [www.synapsewireless.com/warranty](http://www.synapsewireless.com/warranty) for warranty terms

Example Setup of a BMS/SimplySNAP Integration

- BMS
- BMS Protocol
- Ethernet
- BMS Gateway
- REST API
- SimplySNAP Site Controller
- Lights
- Sensors
- SimplySNAP Mesh Network
